

## LES ÉDITIONS LÉGISLATIVES

In a constantly evolving sector, connecting major technical competences with powerful management tools is essential!

*«Like with HR, environmental and safety regulation is evolving all the time. It is difficult for companies to know what regulation is applicable to their activities. By connecting our knowledge and competences to Tennaxia's technologies, our range of services has become the most complete and unique on the market ».*

Laurent Cheruy & Philippe Deroche –Managing Partners of Editions Législatives

### A unique service offering for our clients!

*Les Editions Législatives*, a market leader in its sector, chose Tennaxia's technologies to create a 360° service offering. Their clients have access to functionalities such as information sharing and compliance management, that enables them to:

- Save time: clients customize their regulatory monitoring with 4 simple questions and focus only on applicable regulations.
- Improve efficiency: clients identify and easily monitor their compliance as well as manage their action plans.
- Gain in reactivity: every month, clients receive customized regulatory newsletters to be up to date on legal news.
- Enjoy peace of mind: clients have access to operational 'decoding' of regulations, done by experts.

«As experts, we have an obligation to provide the best solution to our clients. We needed to refresh our older-generation technology. Thanks to Tennaxia and its platform, we have now an innovative and efficient service offering approved by our clients».

### Challenge

- Upgrade our service offering to help our clients with their new challenges.

### Solution

- Implement a compliance management and a regulatory monitoring solution through [business.tennaxia.com](https://business.tennaxia.com) platform

### Résultat

- A service offering adopted by 95% of our clients
